

STI ARMCHAIR

Armchairs

The STI armchair grows directly from the silhouette of the brand's emblem. The curves of the logo are translated into the structure of the chair, shaping the armrests, backrest, and legs into one continuous gesture. What begins as a graphic mark becomes a physical object, turning identity into form.

The result is an armchair defined by fluid lines and balanced proportions, where structure and symbolism merge. Every angle echoes the original logo, creating a piece that is both functional seating and a quiet expression of the STI design language.
